PROFESSIONAL SUMMARY

BCA graduate with hands-on experience developing scalable full-stack applications across MERN Stack, PHP/MySQL, and secure web technologies. Built multiple deployed projects featuring UI/UX, REST APIs, authentication systems, and production-focused deployment. Eager to contribute, and grow in professional development environments.

TECHNICAL SKILLS

Programming Languages :	HTML5, CSS3, JavaScript (ES6+), PHP, Python, Java, C, C++
Frameworks & Libraries :	ReactJS, Express.js, Node.js, Angular.js, Tailwind CSS, Bootstrap
Databases :	MongoDB, MySQL, SQLite, PostgreSQL, Supabase
Tools & Platforms :	Git, GitHub, VS Code, Docker, Redis, Vercel, Render
Core Concepts :	RESTful API Design, MVC Architecture, Responsive Design, Database Optimization

PROJECTS

VaaniSpace – Voice-Powered Productivity & Private AI SaaS Mar 2026 – Present

- Building privacy-first SaaS platform for voice-powered tasks, habits, reminders, and private AI diary workflows.
- Developing scalable full-stack architecture with secure auth, Redis caching, and protected data systems.
- Designing responsive SaaS dashboard with real-time analytics, automation, and modern voice productivity tools.

Technologies / Tools Used : ReactJS, Node.js, Express.js, Supabase, PostgreSQL, Redis, Cloudinary

Swarna Savor – Restaurant Management System (ADVANCED MERN) | Vercel Dec 2025 – Feb 2026

- Developed full-featured applications with secure authentication, role-based access, scalable backend, and RESTful APIs
- Implemented table booking, cart management, order processing, Stripe payments, and responsive customer workflows.
- Built analytics-driven admin dashboard with invoice generation, booking controls, reviews, and modern UI/UX.

Technologies / Tools Used : ReactJS, Node.js, Express.js, MongoDB, JWT, Stripe, Recharts

SPYCE – Restaurant Management System (UI-Focused) | Vercel Dec 2025 – Feb 2026

- Developed responsive platform with authentication, CRUD operations, secure APIs, and scalable, backend systems.
- Implemented cart management, booking workflows, order tracking, and admin panel for business operations.
- Focused on modern UI/UX design with clean interfaces, responsive layouts, and smooth interactions.

Technologies / Tools Used : ReactJS, Node.js, Express.js, MongoDB, JWT

Vision – Optical E-Commerce System (PHP + MySQL) | InfinityFree Jan 2026 – Feb 2026

- Built with secure authentication, product management, search/filter systems, cart workflows, and order processing.
- Developed responsive client pages and admin dashboard for users, products, analytics and operational management.

Technologies / Tools Used : PHP, MySQL, HTML, CSS, JavaScript

Journey Junction – Travel Management System (PHP + MySQL) | InfinityFree Jul 2025 – Sep 2025

- Developed with secure authentication, booking workflows, search/filter systems, and user booking management.
- Build responsive admin dashboard for managing tours, users, inquiries, support tickets, and dynamic website operations.

Technologies / Tools Used : PHP, MySQL, HTML, CSS, JavaScript

EDUCATIONS

Shri Shambhubhai V. Patel College | VNSGU Jul 2023 – Apr 2026

Bachelor of Computer Applications (BCA)

CGPA : 7.32 | First class with Distinction

ACHIEVEMENTS & CONTINUOUS LEARNING

- LeetCode : leetcode.com/u/RamParmar/
- Technical Learning : Continuously advancing skills in Docker, Redis, OAuth, Supabase, and AWS fundamentals
- Portfolio : Built and deployed 4+ production-ready projects on Vercel, Render, and InfinityFree
- Typing Master : Secured 2nd Position
- Net Rising : Secured 2nd position
